

***October 22, 2009 FOR IMMEDIATE RELEASE***

## **CORECARD SOFTWARE ANNOUNCES LAUNCH OF ITS NEW WEBSITE**

NORCROSS, GA, October 22, 2009 - [CoreCard Software \(www.Corecard.com\)](http://www.Corecard.com), a leading provider of card management and boutique processing solutions, is pleased to announce the launch of its updated web presence. "In this economic market, there is an increased need for the flexibility that our software provides in handling revolving credit and prepaid/stored value accounts," said J. Leland Strange, CoreCard Software CEO. With the launch of its new website, CoreCard has doubled the number of pages and tripled the amount of information the new site contains. "So as we continue to update and add new capabilities to our software, the website has naturally expanded. During the coming months, we will provide additional content to support the new products and services in our roll-out plan," added Strange.

CoreCard's suite of products represents the next logical progression in card management software. Its products are built on a software platform that provides a robust card management and transaction processing solution featuring parameter-driven controls and real-time transaction processing. CoreCard's software provides the market's most feature-rich platform that can be deployed on site, hosted by a third-party, or processed at CoreCard's facility.

CoreCard's products are used by corporations, card issuers, acquirers and processors to handle prepaid, private label, reward, loyalty, fleet, gift, payroll and many more types of cards in a variety of industries including retail, manufacturing, banking, healthcare and government.

CoreCard's products can be licensed and deployed by the customer or hosted and managed by CoreCard. As a boutique card processor, CoreCard can help companies launch new card programs quickly by handling all aspects of card issuance and processing. CoreCard configures a processing solution for each client running on the CoreCard software platform and provides a unique option not offered by other processors that allows clients to license CoreCard's software in the future when the company is ready to become its own processor.

Visit the new website today at [www.corecard.com](http://www.corecard.com) and look through all of its offerings.
